

Subhasish Behera

 GitHub —  LinkedIn —  beherasubhasish2005@gmail.com —  subhasishbehera.in

Summary

Versatile Full-Stack Engineer with expertise in production-grade **MERN** applications ,**agentic AI systems**, and real-time platforms. Reduced evaluation time by **45%** using **LLM-driven workflows** and improved application performance by **40%** through **API** and frontend optimization. Skilled in React, Node.js, Python, RAG pipelines, and scalable backend architecture with secure authentication and **CI/CD deployment**.

Experience

IBM Data Analytics Summer Internship June 2024 – August 2024

- Analyzed **100K+** real-world wildfire records using Python and machine learning techniques.
- Identified **5+** high-impact environmental risk factors influencing wildfire spread.
- Built interactive dashboards that improved data-driven decision accuracy by **30%**.

IBM Agentic AI - Project Based Learning Program Jul 2025 – Aug 2025

- Built a **Financial Literacy AI Agent** using **LangGraph** and **Gemini API** with **NLP**-driven query analysis for budgeting, scam prevention, and UPI guidance.
- Developed **agentic AI workflows** in **Python** integrating **LLM**-powered response generation and financial calculators.
- Deployed an interactive **Streamlit** app with **Plotly** visualizations and a **RAG**-based pipeline from RBI sources.

Projects

HealAI - AI-Powered Healthcare Platform GitHub
1st Prize, OSEN VIBECODE Hackathon (500+ Participants)

- Built a full-stack healthcare platform with symptom analysis, OCR report scanning, and **50+ language** support.
- Leveraged **Gemini API** for health insights, emergency triage detection, and disease probability assessment.
- Built a verified clinic locator with real-time **Google Maps routing** to nearby healthcare providers.
- Deployed on Vercel with automated **CI/CD workflows**, zero-downtime releases.

Tech: React 18, TypeScript, Vite, TailwindCSS, Framer Motion, Gemini API, Google Maps API, Supabase

MockAI - AI-Powered Interview Platform GitHub

- Developed an AI-driven interview system with automated scoring and feedback.
- Processed and analyzed **resumes** using NLP and PDF parsing techniques.
- Integrated **Google OAuth** and **JWT-based authentication** with **99% success rate**.
- Reduced interview evaluation time by **45%** using LLM-powered analysis.

Tech: React, Node.js, Express.js, MongoDB, JWT, Flask, Gemini API

Collaborative Whiteboard - Real-Time Collaboration Platform GitHub

- Built a real-time whiteboard for **50+ users** with **< 60ms sync latency** using Socket.io.
- Designed secure room-based sessions handling **1K+ events/min** on Node.js backend.
- Implemented drawing tools + live chat via HTML5 Canvas, boosting collaboration by **40%**.

Tech: React, JavaScript, Node.js, Express, Socket.io, WebSocket, HTML5 Canvas, Tailwind CSS

Education

B.Tech in Computer Science and Engineering Sep 2023 – Present
Odisha University of Technology and Research, Bhubaneswar CGPA: 8.6

Technical Skills

Languages	C, C++, Java, Python, JavaScript, TypeScript
Frontend	React, Next.js, React Native, HTML5, CSS3, TailwindCSS
Backend	Node.js, Express.js, FastAPI, WebSockets, REST APIs
Databases	MongoDB, PostgreSQL, Firebase, Supabase
AI & ML	Gemini API, LLM APIs, RAG Pipelines, Agentic AI
Auth & Security	JWT, OAuth 2.0, Row-Level Security
Cloud & DevOps	Git, GitHub Actions, CI/CD, Vercel, Docker
